

Our **40° Large SoftBox Grids for OctoDome** are made of nylon-webbed fabric to be lightweight, portable, and durable.

Large SoftBox Grids for OctoDome fit our large (7 foot) OctoDome SoftBox.

These Grids provide directional control of soft box light letting you keep light on your subject and off the background.

Velcro® lining makes installation very easy.

Grids now available for all size OctoDomes, including extra small, small, medium, and large.

The **MovieDome®: extra large** is designed for movie and video production. Exceptionally heat resistant, will withstand up to 10,000 watts without burning.

The face of the Extra Large MovieDome is 54" x 72".

The diffusion face and interior baffle are each easily removed, allowing you to go from soft, diffused lighting to high-contrast without changing your setup.

The MovieDome is available in 3 sizes. Connector is required to fit your light. Connector is sold separately.

**MovieDome SoftBoxes have a 5 year warranty.**
